DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-3 and 7-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Petrovic (of record) for reasons of record.

It should be noted that with respect to newly added claim 12, the resonators in figures 10A, 10B 432, 434 are magnetically fixedly coupled because they are not variable.

Claim Rejections - 35 USC § 103

3. Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mizoguchi et al. in view of Petrovic (both of record) for reasons of record.

Considering claims 13 and 14, it should be noted that Mizoguchi et al. shows in figure 57 multiple turns. Nevertheless, single turns would have been obvious based on the desired amount of inductance as would have been well known.

Response to Arguments

4. Applicant's arguments filed 12/9/02 have been fully considered but they are not persuasive. The applicant argues that the references do not disclose or imply that "all resonant circuits of the circuit arrangement are arranged on only one metallization plate of the integrated circuit, having an essentially constant ohmic resistance."

This argument is not persuasive because both of the references applied teach planar inductances on one layer. Therefore, the planar inductances inherently have an essentially constant ohmic resistance because there are formed from the same material in the same plane.

Art Unit: 2817

Accordingly, the claim rejections are maintained.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

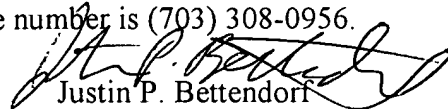

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
